Let's Start!

Something is living in the roof!

Learning Outcome

Describe ways of solving problems and getting things done in work and social contexts.

Ask your partner:

- What type of animals or insects invade houses in your country? What problems do they cause?
- What would you do if a family of animals moved into your house?

Can Do Statements

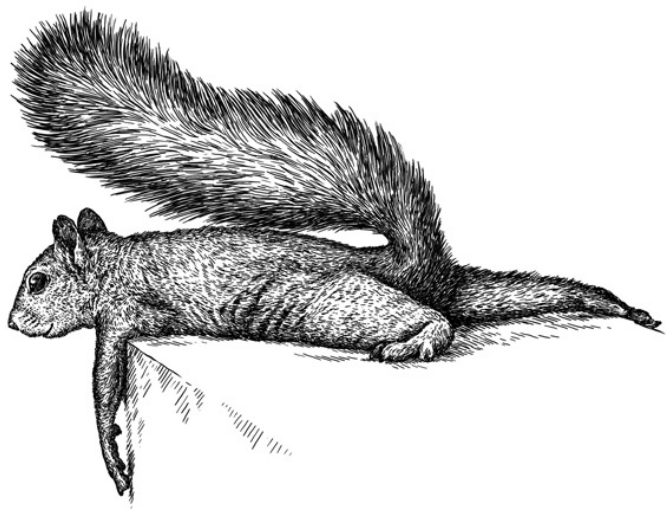

- I can talk about household problems.
- I can talk about things that I'm doing and things that are happening.
- I can talk about things that need to be done.

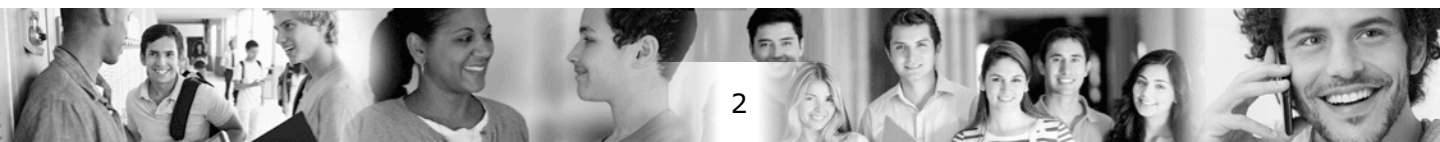

Let's Explore!

Sally and Peter discover squirrels!

Instructions: Read the text aloud.

- Peter:** As luck would have it, we got the tarp up just in time for it to rain!
Sally: Thanks for helping. Now we can sit back and enjoy some hot chocolate!
Peter: Do you hear that?
Sally: Oh, that scratching sound? It's nothing. The tree outside is scraping against the house in the wind.
Peter: It sounds like it's coming from inside the house. Wait! Shhhh! Listen.
Sally: What? You're freaking me out Peter! Tell me ...
Peter: I hate to say it, but I think you've got a family of squirrels who are residing up there. They have torn into the roof. Squirrels do a lot of damage. It will need to be dealt with soon. Pest control can take care of it.
Sally: Do you really think pest control needs to be called? What if we just let the squirrels come out on their own?
Peter: No. Squirrels have front teeth that keep growing and they need to be kept short and sharp. They will just keep gnawing at the roof so the problem will only get worse. If you don't get pest control to come soon, that hole will get bigger and you'll need to pay an even crazier amount of money to have the roof fixed.
Sally: So many things need fixing! What a catastrophe!
Peter: You are being a bit dramatic.
Sally: Am I? I am being dramatic? You'll need to be prepared.
Peter: What? Why?
Sally: Vanessa and I will be staying with you while all this construction is going on.

**Let's Practice!**

Let's call pest control!

Instructions: Underline all the incorrect words in the sentence. Re-write the sentences.

1. It will need to be being dealt with soon. _____
2. Do you really think pest control is needs to be called? _____
3. They need to be keep kept short and sharp. _____
4. So many things need be fixing! _____

**Let's Practice!**

Sally has more household problems than you can imagine.

Instructions: Complete the sentences using the words form the word bank. Use capital letters where necessary.

Word Bank

all this construction / scratching sound / pest control / catastrophe / the roof / gnawing

1. Oh, that _____? It's nothing.
2. _____ can take care of it.
3. They have torn into _____.
4. They will just keep _____ at the roof so the problem will only get worse.
5. What a _____!
6. Vanessa and I will be staying with you while _____ is going on.

Extension Activity

Research about an animal that causes damage to people's homes.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Go online and find out about an animal or insect that causes damage to people's homes. (You can watch a YouTube video, etc.)
- Find out the types of damage they do.
- Find out what needs to be done to remove them and fix the problem.
- Take notes about all the information you find.
- Share your information with a friend.

Self-Assessment

Yes

No

I research an animal that damages homes.

☐ ☐

I discover the type of damage they do.

☐ ☐

I find out what needs to be done to fix the problem.

☐ ☐

I write notes about the research I have done.

☐ ☐

I share my information with a friend.

☐ ☐

Target Words

- squirrel** (noun): a small, bushy-tailed rodent that lives in trees and eats nuts
e.g. I think you've got a family of squirrels who are residing up there.
- scratching** (verb): mark the surface of something with a sharp or pointed object
e.g. Oh, that scratching sound?
- to scrape** (verb): to produce a harsh sound
e.g. The tree outside is scraping against the house in the wind.
- to freak someone out** (expression): to shock or disorient someone
e.g. You're freaking me out Peter!
- to do damage** (expression): to destroy something
e.g. Squirrels do a lot of damage.
- pest control** (noun): the elimination or control of an insect or animal pest
e.g. Pest control can take care of it.
- to gnaw** (verb): to bite for a long time without stopping
e.g. They will just keep gnawing at the roof so the problem will only get worse.
- catastrophe** (noun): a sudden and widespread disaster
e.g. What a catastrophe!
- dramatic** (adjective): relating to theatrics
e.g. You are being a bit dramatic.
- construction** (noun): the act, process of constructing
e.g. I will be staying with you while all this construction is going on.

Learning Points

Need + Passive Infinitive and Need + Verb + ing

Need + passive infinitive and **need + verb + ing** are two structures you use to talk about fixing problems. You use these structures to imply that we don't know who will fix the problem, or that the person fixing the problem is not the focus of the sentence. Note the difference in structure.

I need to call pest control.

In the sentence above I will do the calling. This is an ACTIVE sentence.

Pest control needs to be called.

In this sentence we don't know who will do the calling. This is a PASSIVE sentence.

Pest control needs calling.

This sentence has the same meaning as the sentence above. It is also PASSIVE.

Examples:

- *It will need to be dealt with soon.*
- *Do you really think pest control needs to be called?*
- *They need to be kept short and sharp.*
- *So many things need fixing!*

Simple Present

You use the simple present to talk about facts or states. You also use the simple present with linking or stative verbs.

Simple Present showing Fact

*Squirrels **have** front teeth that keep growing.*

Simple Present with a Stative Verb

*It **sounds** like it's coming from inside the house.*

'**Sounds**' is a verb that shows perception in the example sentence above.

Note: It can also be used in an active sense but the meaning is different.

*She **is sounding** her horn to alert the dog in the middle of the road.*

Examples:

- *It **sounds** like it's coming from inside the house.*
- *I **think** you've got a family of squirrels who are residing up there.*
- *Squirrels **have** front teeth that keep growing.*
- *Do you **hear** that?*
