Let's Start!

What do you do when things go wrong?

Learning Outcome

Relate information about common solutions to problems in spoken and written documents.

Ask your partner:

- Have you ever had a problem in your home? Explain.
- What do you do if something needs to be fixed?

Can Do Statements

- I can talk about household problems.
- I can react to things going wrong and how to solve problems.
- I can talk about things that need to be done.

Let's Explore!

Vanessa's washing machine is not a **known brand***!

* A "brand" is a name or a make of an item. A "known brand" is a brand that has a good reputation.

Instructions: Read the text aloud.

Vanessa: Hello Peter!

Peter: Hey. What are you doing here so early in the morning? Uh-oh! What's with the huge bag?

Vanessa: I'm having a little household problem! My washing machine is busted and I have heaps of laundry to do.

Peter: Ugh! Poor you! You can do a few loads here, no problem. What happened to your machine?

Vanessa: It seems to be leaking and rattling and last night it just stopped working altogether.

Peter: Shoot! I was thinking I might help you fix it, but it sounds like it needs replacing.

Vanessa: Ouch! That's going to be expensive! I guess if it needs to be done, it needs to be done.

Peter: Well, maybe it needs to be looked at first. There's no sense in getting a new one if it can be fixed.

Vanessa: These household appliances can be so badly designed. I mean, I only bought it brand new a couple of years ago.

Peter: Geez! That's too bad. The warranty has probably expired by now. Was it a recognized brand?

Vanessa: It was on sale and not the top of the line, but it wasn't the cheapest one. I can't remember the brand. It isn't one I know well.

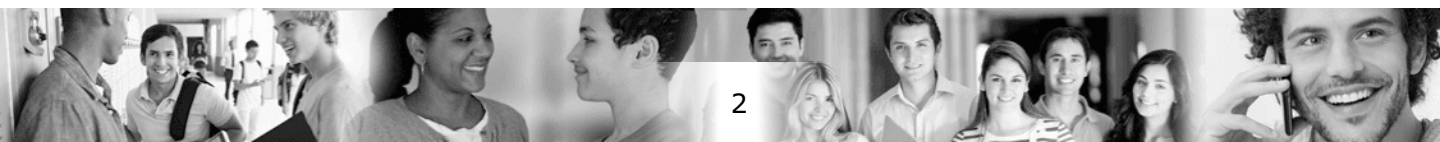

Peter: I hate to say it, but that's your mistake right there. It's always worth spending the money if you can.

Vanessa: Well, you know I like to be careful with my money.

Peter: Yes. I do. You are a bit parsimonious at times! Still, I know how you feel, my fridge needs fixing. I certainly don't want to have to buy a new one!

Vanessa: Well, my clothes need to be washed, so can I put a load in?

Peter: Yup ... and I'll put some coffee on!

Let's Practice!

Vanessa's washer needs repairing!

Instructions: Cross out all the incorrect words in the sentence.

1. It sounds like it needs to be replacing.
2. If it needs to be done, it needs to being done.
3. Well, maybe it needing to be looked at first.
4. My fridge would needs to be fixed.
5. My clothes need to be washed house, so can I put a load in?

Let's Practice!

Peter let Vanessa do laundry at his place!

Learning Points

Needs to Be Done and Needs Doing

Need + passive infinitive and need + verb + ing are two structures you use to talk about fixing problems. You use these structures to imply that you don't know who will fix the problem, or that the person fixing the problem is not the focus of the sentence.

Subject + Need + Passive Infinitive

It needs to be looked at first.

The subject of the sentence is the thing that needs fixing/to be fixed.

Subject + Need + Verb + ing

The washing machine needs replacing.

Examples:

- *If it needs to be done, it needs to be done.*
- *My fridge needs fixing.*
- *My clothes need to be washed.*
